

A letter to our customers

Our commitment to keeping you healthy during the COVID-19 Pandemic

Jodi & Irene at Small Business
Woman of the Year Awards

Jodi and I want you to know that we take this global pandemic very seriously and that we are doing everything we can to not only keep ourselves healthy (more on that below) but also to help keep you healthy.

The Cotton Clouds Environment

It's just Jodi and me working here with an occasional UPS or USPS worker delivering packages.

We make sure to wipe down all door handles, counters, phones, computer keyboard and mouse, pens, chair-armrests, etc. with hospital-grade disinfectant on a daily basis.

We ask that you use caution after handling packages shipped via UPS or USPS. No one knows who has handled these packages. Throw the packaging material away and please wash your hands after handling.

We're both health-conscious anyway

Jodi & I are taking extra precautions to stay healthy. We believe that the best defense is to keep our immune system healthy. Here is a list of helpful hints:

1. Eat clean. Avoid sugar, processed foods, too many carbs.
2. Drink clean. Half your weight in ounces of pure water.
3. Vitamin A, C, D3 (find that 15 minutes of sunshine!) and Selenium.
4. Rest & Relax! Good sleep, yoga, meditation, hot baths (my favorite!), walks in nature. Slow down. Breath deep (where it's safe!)
5. Self-Isolate. As best you can. It's OK right now to become hermit-like. And what a great excuse to stay home and sit at your loom or with your favorite knitting or crochet project.
6. Wash your hands! Take those 20 seconds to do something good for yourself; how many deep breaths can you take? Look in the mirror and smile, tell yourself something wonderful. Speak your Mantra. "I am healthy and radiant!" is one of mine. Maybe this will start a whole new movement of self-care!

Keep in touch!

We'd love to hear from us! This is a great time to build bonds and develop friendships. We are here for you. Stay healthy, stay safe and stay of good mind.
